Cumulative GPA: 3.43

Relevant Coursework: Discrete Mathematics, Linear Algebra, Computer Architecture and Organization, Data Structures & Algorithms, Composition I & II

RELEVANT ACADEMIC EXPERIENCES

University of Massachusetts Boston - ADAGE Program | Boston, MA

Member

Sept 2025 - May 2026

- Strengthened technical skills by completing structured cybersecurity and networking training to build a foundational understanding of secure IT systems.
- Developed professional presence by participating in collaborative development sessions focused on presenting technical concepts and confidently guiding discussions.

Technical Skills

- Operations & Analysis: Process Mapping (SOPs), Requirements Analysis, Workflow Optimization, Technical Documentation
- Data & AI: Advanced Excel (Pivot Tables, Data Validation), Google Sheets, Generative AI (ChatGPT, Claude, Gemini)
- IT Administration: Google Workspace Admin, Asset Management, ISO/Audit Compliance, Windows, macOS
- Programming: Python, Java

PROFESSIONAL EXPERIENCES

Action for Boston Community Development (ABCD) | Boston, MA

Administrative Operations Intern (Information Technology Services)

Jun 2026 - Present

- Translated business processes into actionable delivery plans by directing requirements gathering with the CEO and department heads to align strategic technology goals.
- Designed governance protocols for an AI Service Navigator using RAG architecture and NIST frameworks, mitigating data privacy risks and ensuring secure data retrieval.
- Authored 75+ enterprise SOPs across 15 IT domain areas, eliminating operational bottlenecks and standardizing business procedures to guarantee multi-site audit compliance.
- Streamlined end-user provisioning and accelerated IT service delivery by re-engineering hardware asset workflows and documenting Identity & Access Management (IAM) pipelines.

Santos Hardwood Floors and Construction | Everett, MA

Operations Assistant

Jan 2024 - May 2026

- Ensured workflow accuracy by auditing and maintaining 100+ operational records, contracts, and financial invoices to support detailed project management.
- Guaranteed regulatory compliance by tracking and organizing 30+ building permit applications for accurate submission and project milestone delivery.
- Accelerated issue resolution by communicating directly with external stakeholders to gather, verify, and clarify critical business information.
